fold_it

With our fold_it sofa you can sit back just the way you want. Its flexible backrest and adjustable armrests allow you to choose the seat depth and make yourself as comfortable as you need. Its modern, eye-catching design will be a stylish addition to any living-room.

Arteston sofas are characterized by their adjustability, use of long-lasting natural materials and the combination of great design with high-quality production. The Arteston brand is a project of the Krošlák family company, with more than 25 years of experience as a sofa manufacturer and clients all across Europe.

Backrest Positions

A sofa with a fixed seat depth is rarely suitable to various sitting styles or people of different height. But our adjustable backrest allows you to choose just the right seat depth.

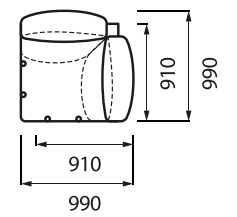

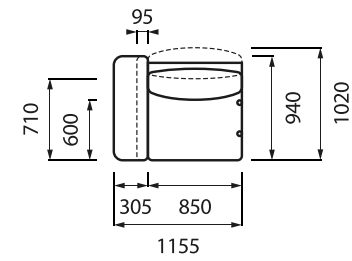

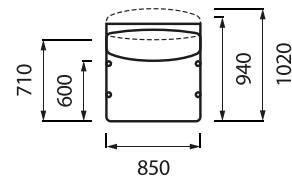

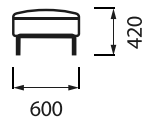

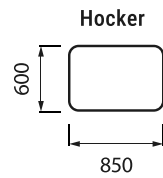

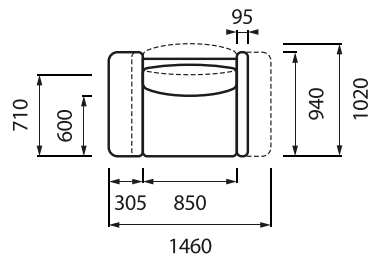

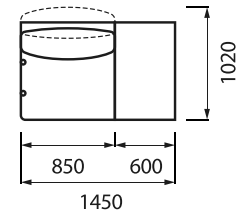

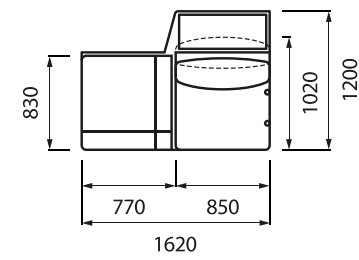

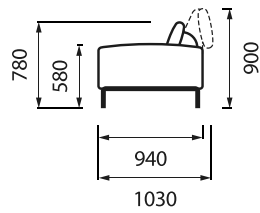

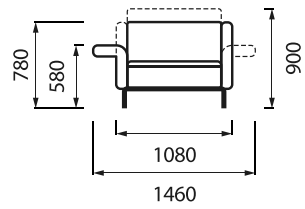

Armrest Positions

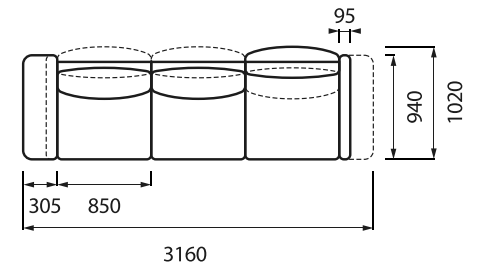

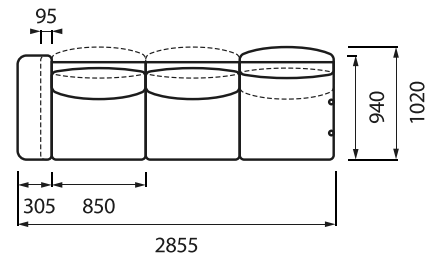

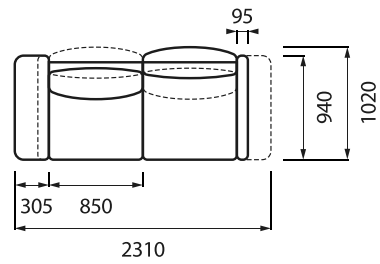

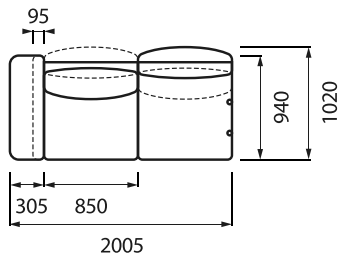

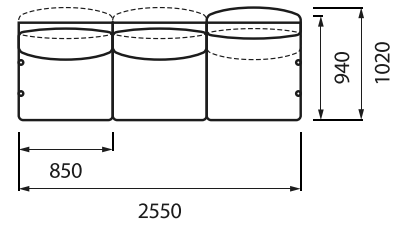

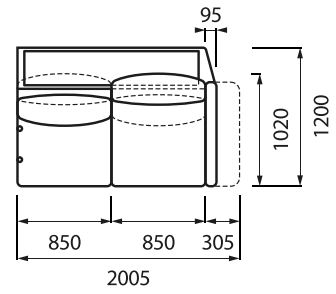

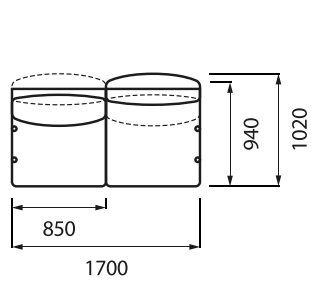

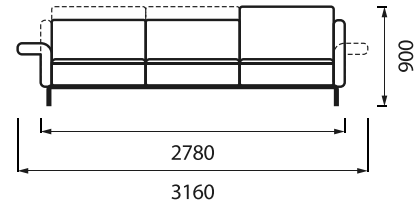

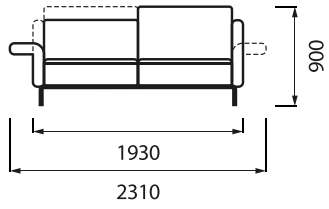

Not only do the adjustable armrests allow you to sit more comfortably, they are also great for lounging. When raised a little, they can be used as a headrest, and you can lie on the sofa for as long as you want. The armrest can be set in any position and it will stay there until changed again.

Flexible Space Solution

You can easily order your own tailor-made sofa with our different elements.
A sofa that best matches your requirements will find its natural place
in your living room.

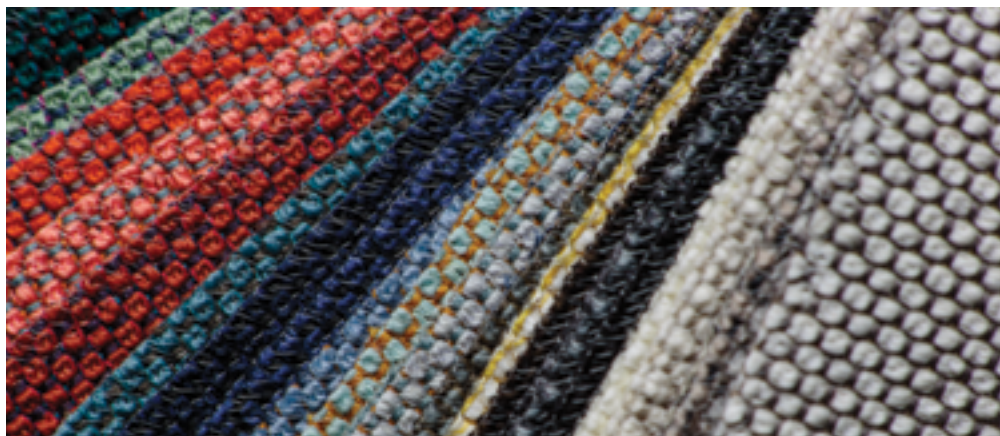

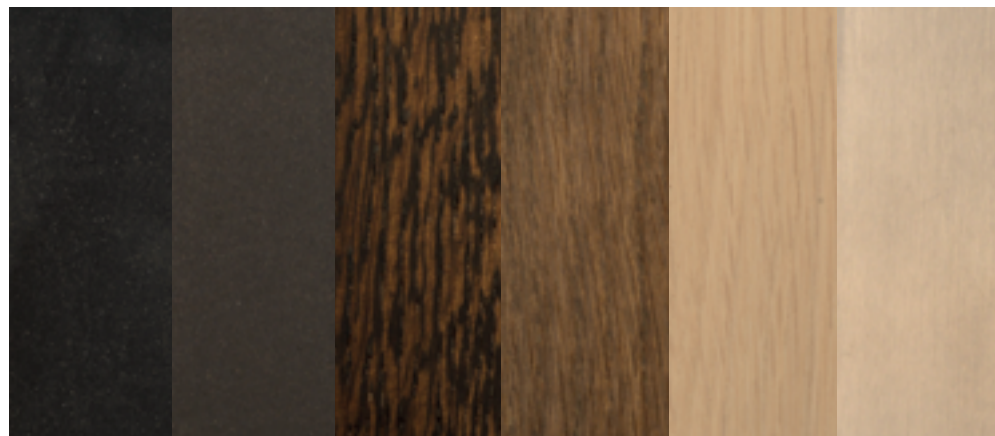

Wide Range of Materials

The upholstery of a sofa is at least as important as its design; therefore we offer a very wide and varied range of materials in different shades and colours. Whether you prefer the natural look of leather, which makes for a luxurious appearance, or a textile finish made of quality natural fabrics, be assured, you will get a high-quality product. Our materials satisfy the highest demands, and their appearance and quality remain the same for a long time.
