

Arteston
INTERIOR COUTURE

fold it

The *fold_it* sofa lets you sit back just the way you want. With its flexible backrest and adjustable armrests, you can choose the seat depth and make yourself as comfortable as your needs and mood demand. Its modern, eye-catching design is a stylish addition to any living-room.

Arteston sofas are characterized by their adjustability, long-lasting natural materials and their combination of great design and high-quality production. Behind the brand stands the Krošlák family company, with over 30 years of tradition as a sofa manufacturer with clients all across Europe.

Backrest Positions

A sofa with a fixed seat depth might not suit all sitting styles, or people with different heights. Thanks to the adjustable backrest, you can choose exactly the seat depth you need at any moment.

Armrest Positions

The adjustable armrests allow you not only to sit more comfortably, but are also great for lounging. Just raise them a little higher and use them as a headrest so that you can recline on the sofa in comfort, even for long periods. The arm rest can be set in any position, in which it will then remain.

Design first

Fold_it was designed by Michal Riabič. An experienced product designer, he focuses on the timelessness of form, trends and lifestyle, thanks to which he has already won several awards for his furniture designs.

Flexible Space

You can easily put together your own tailor-made sofa using our different elements to best match your requirements and let it find its natural place in your living-room.

Wide Range of Materials

The outside of a sofa really does matter; so you can choose from a very wide and varied range of materials in different shades and colours. Whether you prefer the natural look of leather which gives your sofa a luxury appearance and timeless quality, or go for a textile finish made of high-quality natural fabrics, you can be sure you won't end up with a cheap lookalike. We place extremely high demands on our materials, and choose only ones which will remained unchanged in terms of appearance and quality even after a long time.
