

Arteston
INTERIOR COUTURE

form_it

form_it is a design piece of furniture that is especially suitable for use in business environment. The ergonomics of the sofa suits all body types and its modern yet unobtrusive look will rejuvenate any office or common space. The combination of comfortable seating and natural materials makes the *form_it* sofa a stylish accessory, but it is primarily a long-lasting solution of seating for visitors and employees.

Arteston sofas are characterized by their adjustability, long-lasting natural materials and their combination of great design and high-quality production. Behind the brand stands the Krošlák family company, with over 30 years of tradition as a sofa manufacturer with clients all across Europe.

Form That Suits All

form_it is a sofa designed to be comfortable for a wide range of users. Thanks to its ergonomic shape, it is suitable for both shorter and taller people, and is therefore especially fitting for use in areas where furniture cannot be individually customized.

Unobtrusive Originality

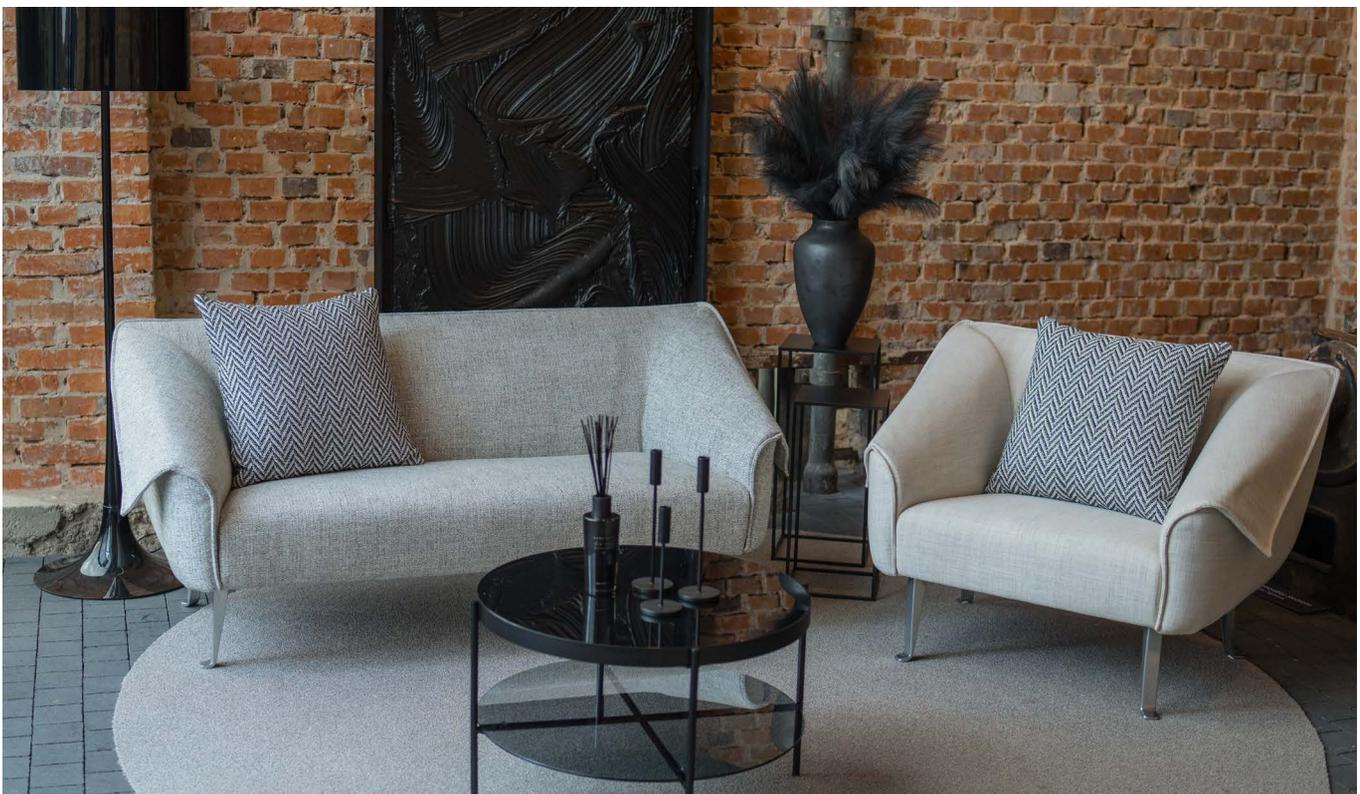

The casual-looking armrests, inconspicuous legs and a selection of materials based around high-quality Merino wool make form_ it sofa an original interior element that stands out, but at the same time isn't too eye-catching.

Design first

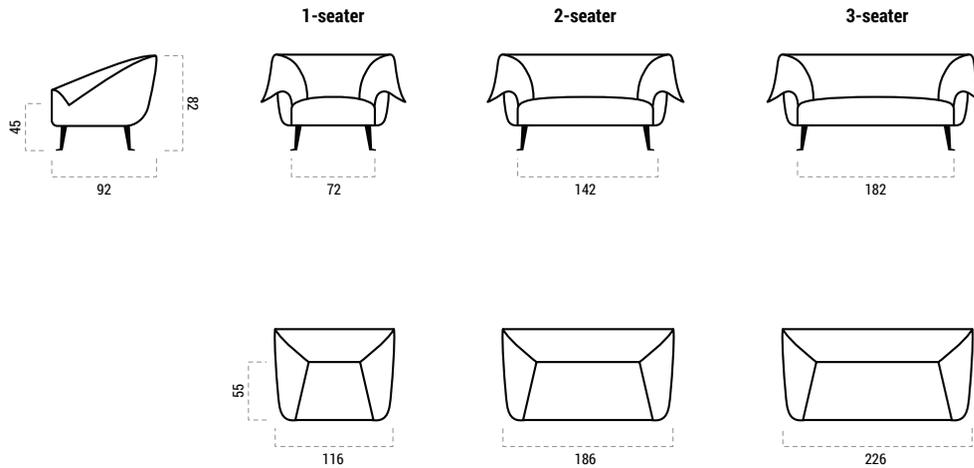

Arteston sofas were designed by the product designer Michal Riabič. He finds inspiration in natural materials and traditional craftsmanship and his work is based on timeless form, trends

and lifestyles. He has won several awards for his furniture designs, including the Czech Furniture of the Year and was also nominated for a RED DOT design award.

Flexible Space

The sofa can be comfortably tailored from a number of different elements. This way, it is guaranteed to satisfy your requirements and naturally fit into any space.

Wide Range of Materials

The outside of a sofa really does matter; so you can choose from a very wide and varied range of materials in different shades and colours. Whether you prefer the natural look of leather which gives your sofa a luxury appearance and time- less quality, or go for a textile finish made of high-quality nat- ural fabrics, you can be sure you won't end up with a cheap lookalike. We place extremely high demands on our materials, and choose only ones which will remained unchanged in terms of appearance and quality even after a long time.
