INTERIOR COUTURE

pouffy & cubano

The Pouffy is a complementary element to the seating furniture. Its simple lines and generous dimensions increase comfort in the relaxation area. The pouf with a metal base creates an elegant look, visually completing any seating set or chair.

The Cubano coffee table impresses with its noble material in an elegant design. It's an uncommon aesthetic piece that attracts attention and adds the right decorative accent to a room. The conference table completes the seating furniture into a harmonious whole for the relaxation area, not just for the visual effect but also for comfort during relaxation.

The Solitaire

The combination of metal elements of the base and frame bordering the stone effectively creates a unified composition. The Cubano table is a striking decorative element in the room thanks to the gres pattern. The combination of warm brown leather used on the edges with cool blue tones of the natural decor resembles the earth and sea. This unusual combination makes the table an interior artifact.

Original Combination

Different elements of the table are optional and their combination will be unique to a specific interior. A wide spectrum of fabric and leather colors, metal finishes, and several gres decorations are available. A variant without a base can also be chosen.

Versatile Use

Puffy serves as a footrest and also as an additional seat for guests. The pouf is versatile, and its advantage is the ability to easily move it according to current use. The variability of its use will be applied not only in the living room, but also in the bedroom or a spacious bathroom.

Verified Classic

The version without a base stands out as a standalone seating inspired by Ottoman culture. The versatility of this upholstered piece of furniture is not a modern invention. Poufs or ottomans have gained popularity in Europe as early as the 18th century. In combination with the Cubano coffee table, it creates a unique relaxation space, with a cup of tea and a touch of uniqueness, far from the uniformity of modernity.

Flexible solution

Thanks to the options of type and color of the base, your new Pouffy or Cubano will perfectly adapt to your demands for comfort.

Wide Selection of Materials

The cover really does matter. You can choose from a very wide and varied range of materials in different shades and colours. Whether you prefer the natural look of leather which gives your sofa a luxury appearance and time-less quality, or you aim for a textile finish made of high-quality natural fabrics, you can be sure you won't end up with a cheap lookalike. We place extremely high demands on our materials, and choose only ones which will remained unchanged in terms of appearance and quality even after a long time.
